TENSAW RIVER LIFT BRIDGE

HAER AL-104

Spanning Tensaw River at U.S. Highway 90

Mobile

Mobile County

Alabama

INDEX TO BLACK AND WHITE PHOTOGRAPHS

Daniel R. Pratt, photographer, October 1994

AL-104-1	Aerial view of Tensaw River Bridge in local context, facing east, photograph taken from roof of First Bank of Mobile building
AL-104-2	View of Tensaw River Bridge, looking northeast. Photograph taken from observation deck of Battleship USS Alabama
AL-104-3	View of Tensaw River Bridge, looking northeast. Photograph taken from observation deck of Battleship USS Alabama
AL-104-4	View of west approach trestle and spans No.1 and No. 2 of Tensaw River Bridge, looking north
AL-104-5	View of spans No. 2, No. 3, and No. 4 of Tensaw River Bridge, looking north
AL-104-6	View of eastern approach trestle and spans No. 4 and No. 5 of Tensaw River Bridge, looking north
AL-104-7	View of western elevation of span No. 1, western approach of Tensaw River Bridge, looking east
AL-104-8	View of western elevation of span No. 1, western approach of Tensaw River Bridge, looking east
AL-104-9	View of central lift span truss web of Tensaw River Bridge, showing support girders for life house, looking east

TENSAW RIVER LIFT BRIDGE

HAER AL-104

INDEX TO PHOTOGRAPHS

(Page 2)

AL-104-10	View of central lift span truss web of Tensaw River Bridge, showing web bracing, looking east
AL-104-11	View of West end of central lift span truss web of Tensaw River Bridge, showing web brace of lift girder superstructure, looking west
AL-104-12	View of West end of central lift span truss web of Tensaw River Bridge, showing operator's ladder and platform, diagonals and posts, looking southwest
AL-104-13	View of typical first or second diagonal of Tensaw River Bridge, looking southwest
AL-104-14	View of typical third diagonal of Tensaw River Bridge, looking southwest
AL-104-15	View of typical post of Tensaw River Bridge, looking southwest
AL-104-16	View of lifting girder and tower support superstructure on Tensaw River Bridge, looking north west. Showing rope connectors and welding cut from tower removal.
AL-104-17	View of lifting girder and tower support superstructure on Tensaw River Bridge truss No. 2, looking northwest. Showing rope connectors and deflector sheaves.
AL-104-18	View of riveted joint on tower support superstructure of Tensaw River Bridge truss No. 2, looking northeast, showing deflector sheaves, roller and complex joint construction
AL-104-19	View of riveted joint on tower support superstructure of Tensaw River Bridge truss No. 2, looking southwest, showing deflector sheaves, roller and complex joint construction
AL-104-20	View of riveted joint of typical end post and first polygonal upper chord on Tensaw River Bridge, looking northeast
AL-104-21	View of riveted joint of typical post and polygonal upper chord of Tensaw River bridge, looking northeast
AL-104-22	View of typical top central sway bracing on Tensaw River Bridge, looking straight up
